The rise of media Streaming has accelerated the downfall of industry DVD rental companies such as Blockbuster. In July 2015 an article from the New York Times published an article about Netflix's DVD service (2020) s. It stated that Netflix is continuing their DVD service (2020) s with 5.3 million subscribers, which is a significant drop from the previous year. They can be ripped from BD25 or BD50 discs (or UHD Blu-ray at higher resolutions). BDRips are from a Blu-ray disc and encoded to a lower resolution from its source (i.e. 1080p to 720p/576p/480p). A BRRip is an already encoded video at an HD resolution (manually 1080p) that is then transcoded to a SD resolution.
